Future Focused:

Renovating, Rebuilding, Re-energizing

Dear Flint Families,

When it comes to your children’s education, your voice means everything to us. Flint Community Schools is nothing without the community that it serves. To that end, the district today announced the launch of community forum meetings, which will begin the week of November 29 and run through mid-December. The community forum meetings will be used to gather input to determine the use of \$99 million in ESSER III funds as well as potential grant funding that FCS has been invited to apply for from the Charles Stewart Mott Foundation to help create a bright future for Flint kids.

Each community forum meeting will ask participants the following questions:
